

GUARD RAIL

IMCAR®

GUARD RAIL

La macchina **Guard-rail** è una centinatrice di barriere stradali, capace di curvare sezioni a 2 e 3 onde sia con ala interna che esterna.

Un set di rulli speciali consente la curvatura di profili **UNP** con ala interna ed esterna.

Le attrezzature per le diverse sezioni rimangono sempre montate e rendono la macchina **Guard-rail** veramente semplice e sempre pronta per l'utilizzo delle seguenti lavorazioni:

GUARD-RAIL — 3 ONDE — ALA ESTERNA

GUARD-RAIL — 3 ONDE — ALA INTERNA

GUARD-RAIL — 2 ONDE — ALA ESTERNA

GUARD-RAIL — 2 ONDE — ALA INTERNA

PROFILO UNP — 120 x 80 — ALA ESTERNA

PROFILO UNP — 120 x 80 — ALA INTERNA

Set rulli per curvatura profili **UNP**
Special rolls to bend UNP profile

*The **Guard-rail** bending machine is capable to bend sections with 2 and 3 waves, outside and inside wing.*

*A set of special rolls can also bend **UNP** profile, leg-in and leg-out.*

*The tools for different sections are always ready for production, so the machine **Guard-rail** is very easy to use for the following productions:*

GUARD-RAIL — 3 WAVES — LEG-OUT

GUARD-RAIL — 3 WAVES — LEG-IN

GUARD-RAIL — 2 WAVES — LEG-OUT

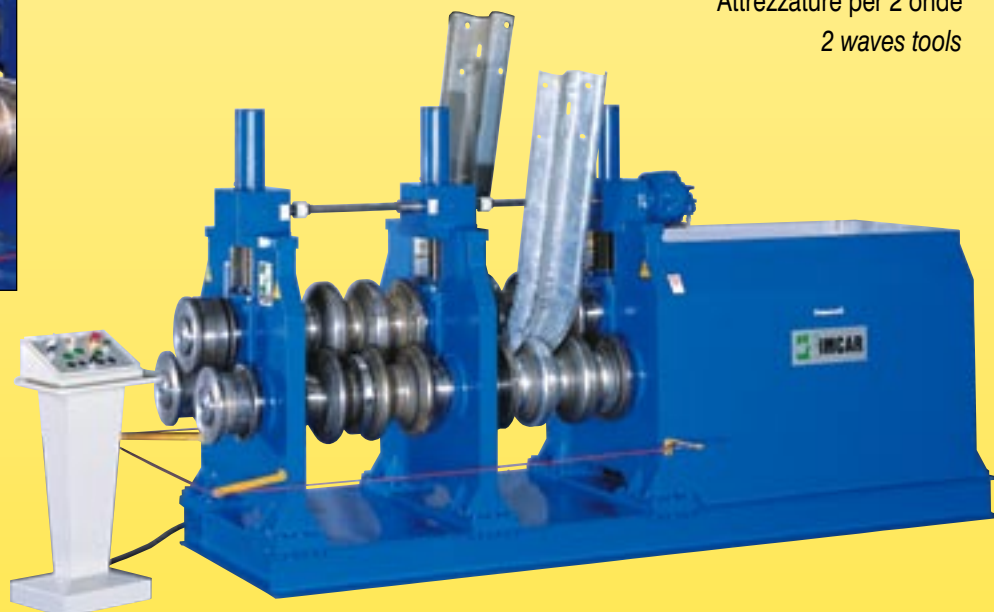

GUARD-RAIL — 2 WAVES — LEG-IN

UNP PROFILE — UP TO 120 x 80 — LEG-OUT

UNP PROFILE — UP TO 120 x 80 — LEG-IN

Attrezzature per 2 onde
2 waves tools
